PROJECTS

Quiz Management System, [Link](#) **Nov 2024**

Designed and developed a Java-based Quiz Management System with SQL and JDBC for seamless quiz creation and participation. Features include admin-controlled question management and real-time score calculation for users, ensuring a secure and interactive experience.

Web Application of Banking Services, [Link](#)

I developed a full-stack banking web application using Java Servlets, JSP, and MySQL. The project features multi-step account creation, session management, and database integration, following best practices like MVC and Factory patterns for scalability and maintainability. It highlights my ability to build secure and dynamic web applications efficiently.

WORK EXPERIENCE

Internshala, [Link](#) **Sep - 2022**

Web Developer Intern

Acquired hands-on experience in web development by designing user interfaces and implementing functionality. Gained proficiency in HTML, CSS, JavaScript, and other essential technologies through various projects, which strengthened my problem-solving abilities and technical skills in real-world scenarios.
